

# Motorcycle Spare Parts and Accessories from ZF Aftermarket.

SACHS and TRW – two big brands from one single source!

AFTERMARKET

# Competence and Safety on Two Wheels – from ZF Aftermarket.

ZF Aftermarket is a global supplier of vehicle parts in OE quality. The ZF Aftermarket motorcycle team based in Neuwied, Germany, provides a wide range of spare parts and accessories manufactured by SACHS and TRW for motorcycles, scooters, trikes and quads.

## SACHS – proven performance

When it comes to OE, motorcycle manufacturers have trusted in the quality of the SACHS brand for decades. Likewise, clutches produced by SACHS for the aftermarket also meet the tough OE standards. On motorcycles repaired with SACHS original spare parts, the clutch will shift and engage just like on the first day of purchase.

**You can order the parts order list for SACHS motorcycle clutches with the item number 12616 EN.**

## TRW – safety meets performance

Whether on the road, off-road trail or the race track – for over 100 years, motorcyclists around the world have placed their trust in TRW. TRW offers a wide range of safety-related wear parts and high-quality accessories: alongside brake linings, brake shoes, brake disks, braided stainless steel brake lines, clutches, rearsets and control arms, the TRW range also includes jack-up and lowering kits, license plate holders and chain guards.

**You can order the comprehensive TRW motorcycle parts catalog with the item number XDB500K.**
